## **LEOTIOMYCETES CHECKLIST OF MT FRUŠKA GORA WITH NEW RECORDS FOR SERBIAN MYCOBIOTA**

DRAGIŠA SAVIĆ<sup>1</sup>, MAJA KARAMAN<sup>2</sup>

<sup>1</sup> National Park Fruška Gora, Zmajev trg 1, 21208 Sremska Kamenica, Republic of Serbia, e-mail: dragita@gmail.com

<sup>2</sup> University of Novi Sad, Faculty of Sciences, Department of Biology and Ecology, Dositeja Obradovića Square 2, 21000 Novi Sad, Republic of Serbia

In the period from 2012 to 2016 diversity of fungi from the class Leotiomycetes (Ascomycota) was investigated on the Mt Fruška Gora Mountain (Serbia). In total we recorded 164 species of which 131 represent the first records for Serbia. The paper includes a list of all the collected leotiomycetous fungi, except order Erysiphales, on Mt Fruška Gora, with data of localities, collection dates, host plants, as well as data from the literature concerning all species that have so far been reported from Serbia. The whole number of recorded species from the class Leotiomycetes in Serbia is 342, including the species from the order Erysiphales (104).

**Key words:** Ascomycota, Leotiomycetes, Serbia

### **INTRODUCTION**

Fruška Gora Mountain is located between 45° 0' and 45° 15' N and between 16° 37' and 18° 01' E. It extends between the Danube and Sava rivers (Miljković 1975). This mountain, located in the south of the Pan-

nonian Plain, has a length of about 80 km, and a maximum width of 15 km, with the highest peak, Crveni Čot, at 539 m. Hydrographic network of Mt Fruška Gora is very rather and relatively evenly distributed. Surface water is represented with a network of streams, ponds and artificial lakes. Fruška Gora is located at the border of the temperate continental and subcontinental climate region, and due to the changes in climatic characteristics along altitudinal gradients and the influence of forest cover, the climate here has subcontinental characteristics (Stevanović and Stevanović 1995). According to the biogeographical classification of the territory of Serbia, Fruška Gora belongs to the Central European region and within it to the Central European Balkan-subregion of the Illyrian or Pannonian province (Stevanović 1995). Fruška Gora is a forest area, but from the former 130,000 ha of land under forests, only 23,000 ha remain today, mainly because of anthropogenic factors and excessive exploitation in the past. At present, the former forest areas are replaced mostly by meadows, fields, vineyards and orchards. Forest communities are of mixed or pure composition. Uniform forests are made of oak (*Quercus petraea*), beech (*Fagus sylvatica*) and sometimes linden (*Tilia tomentosa*) or hornbeam (*Carpinus betulus*), while the structure of mixed forests consists mostly of linden and beech, and rarely hornbeam and oak. Pure beech and pure hornbeam forests are rare while meadow-steppes are situated mainly on the periphery of the mountain (Janković & Mišić 1980).

Serbia is mycologically a poorly explored area and most of the data is mainly related to species of the phylum Basidiomycota. The first data of the fungi of the phylum Ascomycota in Serbia was given by Schulzer *et al.* (1866). In his work about the plants of Slavonia (today in Republic of Croatia), data on nearly 1,000 species of fungi is presented, including around 140 species from the area of Fruška Gora (mainly Basidiomycota). In this work, *Coccomyces dentatus* and *Ascodichaena rugosa* recorded on Fruška Gora virtually represent the first published data about fungi of class Leotiomycetes in Serbia. After this work Nikola Ranojević published his data in two extensive articles in 1910 and 1914. Among more than 600 species that have been recorded in Serbia, most of them belong to phylum Ascomycota, and among them 30 species are members of the class Leotiomycetes. Until the end of the XX century, after his work, there were only three published papers on this group of fungi: Čolić (1967) reported 9 species for the area of the mountain Tara (*Chlorociboria aeruginosa*, *Phaeohelotium fagineum*, *Mitrula paludosa*, *Cudonia circinans*, *Lirula macrospora*, *Lirula nervisequa*, *Rhytisma acerinum*, *R. salicinum* and *R. umbonatum*). Gajić (1989) reported only 8 species for the Mountain Golija (*Cenangium ferruginosum*, *Gremmenia infestans*, *Cyclaneusma minus*, *Cyclaneusma niveum*, *Lirula macrospora*, *Lirula nervisequa*, *Lophodermium pinastri* i *Lophodermium seditiosum*) and Čoja (1989) only one. Since

the beginning of the XXI century, more and more data of ascomycetous fungi of Serbia was obtained, thanks to the research of mushrooms in the forest ecosystems of Serbia (e.g. Karadžić 2003, 2006, 2008, Karadžić & Milijašević 2003, 2005, 2008, Karadžić & Stanivuković 2010). Since the most complete work regarding the ascomycetous fungi is present in the monograph about the order Erysiphales in Serbia (Ranković 2002) which includes data about 104 species from this order, in this paper these data are not included.

The published data on fungi of class Leotiomycetes on Fruška Gora are extremely scarce. After first record obtained by Schulzer *et al.* (1866), Ranković (1955) cites *Rhytisma acerinum*, Karadžić (2011) reports *Encelia glaberrima*, *Pezicula carpinea* and *Rutstroemia bolaris*, and Marković (2012) *Phacidium lauri* and *Botryotinia fuckeliana*. In the paper of Karaman *et al.* (2012) preliminary data based on studies ascomycetous fungi of Fruška Gora Mt. in the last 20 years is presented. Of the approximately 100 species that are reported in this paper, 20 belong to the class Leotiomycetes (*Arachnopeziza aurata*, *Chlorociboria aeruginascens*, *Drepanopeziza punctiformis*, etc.).

In the kingdom of fungi, the class Leotiomycetes belongs to the phylum Ascomycota and subphylum Pezizomycotina. In previous works (e.g. Dennis 1978, Kimbrough 1970, Pfister & Kimbrough 2001) classification within this class was mostly based on morphological characters while molecular phylogenetic analysis of this group of fungi, that is comparatively young, brings some new facts in classification (Gernandt *et al.* 2001, Wang *et al.* 2006a). According to Wang *et al.* (2006b), the class Leotiomycetes was divided into 5 orders (Cyttariales, Erysiphales, Helotiales, Rhytismatales, Thelebolales). Subsequently, the orders Leotiales, Phacidiiales and Thelocarpales were added (Crous *et al.* 2014, Jaklitsch *et al.* 2016). The largest order in the class Leotiomycetes (and in general Ascomycota) is the order Helotiales with about 2,500 species described so far (Lumbsch & Huhndorf 2010).

The Leotiomycetes is a highly diverse group of Pezizomycotina and includes nonlichenized fungi producing a generally small apothecia with an exposed hymenium and an inoperculate, unitunicate ascus that has an apical perforation pore for releasing ascospores (Wang *et al.* 2006b).

In many cases the ecological and biological features of these fungi represent the important taxonomic characters. In some orders, such as the Erysiphales, Cyttariales, Thelebolales and Rhytismatales, distinct ecological characters and nutritional modes are almost unique for each group. Members of the Helotiales thrive in various ecosystems and cover a broad range of niches, thus helotialean fungi have been described as plant pathogens, endophytes, mycorrhizae, ectomycorrhizal parasites, fungal pa-

rasites, terrestrial saprobes, aquatic saprobes, root symbionts and wood-rot fungi (Wang *et al.* 2006a).

## MATERIALS AND METHODS

Samples of fungi were collected in the period from 2012 to 2016 on Mt. Fruška Gora (Serbia). Fungi were collected in different habitats, mostly in deciduous forests (localities: Iriški Venac, Novo Hopovo, Paragovo, Popovica, Čerević, Papratski Do, Andrevlje, Rakovac, Stražilovo, Ledinci, Vrdnik, Irig, Jabuka, Kraljeva stolica, Rajkovač, Testera, Osovije and Zmajevac), on the meadow-steppe (localities: Glavica, Brankovac, Banstol, Bukovac, Erdelj and Grgurevc) and humid places near the streams and the Danube river (localities: Beočin, Sremska Kamenica, Svilob, Sremski Karlovci, Susek, Banoštor and Petrovaradin).

Microscopic features of most samples were examined in the fresh, living state in tap water (Baral 1992) using a transmission light microscope (Olympus BX 51) with bright-field technique. Freehand sections were made using a razor blade. The iodine reaction was tested with Lugol's solution with a concentration of iodine around 0.5–1% (Baral 1987). In the case of herbarium specimens, hymenial fragments were rehydrated with water.

Identification of the species was performed using specific identification keys (e.g. Dennis 1978, Ellis & Ellis 1997, Medardi 2012). The collected samples were dried and deposited in the officially unregistered Herbarium of Fruška Gora National Park (listed species designation F.G.). Author citations are given according to Index Fungorum (2016). Taxonomy and nomenclature (families and genera) are given according to Baral *et al.* (2015) and Jaklitsch *et al.* (2016). Taxa within families are listed in alphabetical order. For the species *Leptodontidium trabinellum*, *Monostichella salicis*, *Polydesmia pruinosa* and *Rhynchosporium secalis* affiliation to a certain family is still not determined, therefore they are in the group marked as "*incertae sedis*". Species of the genera *Durella* and *Strossmayeria*, which until now belonged to the family Helotiaceae (Kirk *et al.* 2008), are temporarily placed in a group named as "*Strossmayeria* lineage" according to Jaklitsch *et al.* (2016).

The following information is provided for each fungal species: scientific name, locality, date, host, herbarium number, collector and a person who identified given collection (leg. & det.). For the reason of transparency, localities which refer to Fruška Gora were separated from the rest of Serbia. Only findings from Fruška Gora are enumerated in the list of species. Species which represent the first records for Serbia are marked

with an asterisk. Species found in the anamorph state (asexual reproductive stage) are indicated as “(anamorph)”, and species, for which a sexual reproductive stage (teleomorph) is unknown, e.g. *Botrytis galanthina*, have the notification “(Anamorphic *Botryotinia*)” after the name.

## RESULTS AND DISCUSSION

Based on our research results obtained in this study for the Fruška Gora Mountain and previous literature data for the whole region of Serbia (Schulzer *et al.* 1866, Ranojević 1910, 1914, Ranković 1955, 2002, Čolić 1967, Gajić 1989, Čoja 1989, Szabados 1998, Karadžić 2003, Karadžić *et al.* 2002, 2004, Milijašević 2003, Karadžić & Milijašević 2003, 2005, 2008, Milijašević & Karadžić 2004, Bulaić *et al.* 2006, Keča 2006, Marković 2006, Marković & Karadžić 2006, Miletić & Stević 2006, Ivančević 2007, Karadžić & Milanović 2008, Halaši *et al.* 2008, Karadžić & Stanivuković 2010, Ivančević & Davidović 2011, Karaman *et al.* 2012, Marković 2012, Golubović-Ćurguz *et al.* 2013 and Hrustić *et al.* 2015) the total number of known fungal species from the class Leotiomycetes is 342 species up to date. About one third of them belong to the order Erysiphales (104) and the rest to the orders Helotiales (196), Rhytismatales (30), Phacidiales (9) and Thelebolales (3).

The total number of species of Leotiomycetes on Fruška Gora is 180, and 148 of them represent new records for the studied area, and 131 the first records for Serbia.

Most of the recorded species on Fruška Gora were found in the teleomorphic state, with four species found in both teleomorphic and anamorphic state (*Ascocoryne sarcoides*, *Holwaya mucida*, *Sclerotinia sclerotiorum* and *Dermea prunastri*) and only eight in the anamorphic state (*Ascocoryne solitaria*, *Botryotinia fuckeliana*, *Botrytis galanthina*, *Drepanopeziza punctiformis*, *Drepanopeziza sphaerioides*, *Monilinia fructigena*, *Sclerotinia sclerotiorum* and *Sympyosirinia clematidis*).

According to the type of substrate, most species on Fruška Gora grow as saprotrophs on rotten wood and fallen branches of deciduous trees (78), on rotting leaves of deciduous trees (19), on rotting leaves and cones of conifers (10), on catkins of alder and hazel (2), on cupules and fruits (oak, beech, alder) (21) and on rotten herbaceous plants (39). In addition, one species (*Dumontinia tuberosa*) is a parasite on the plant rhizomes of *Anemone ranunculoides* and one (*Polydesmia pruinosa*) occurs primarily on stromata of pyrenomycetes. Rare substrates for this group of fungi are soil, on which *Leotia lubrica* and *Geoglossum fallax* occur (terricolous) and

dung of mammals, where three coprophilous species was detected (*Thelebolus stercoreus*, *Trichobolus sphaerosporus* and *T. zukalii*)

We have made corrections on two misidentified collections previously published from Mt. F.G. (Karaman *et al.* 2012) on the basis of reexamination of dried material. These are: F.G. 54, found in Beočin on the leaf of white willow and identified as *Marssonina salicina* Tehon that in fact represents *Drepanopeziza sphaerioides* (Pers.) Nannf., and F.G. 87, found at the site of Kraljeva stolica and identified as *Lachnellula subtilissima* (Cooke) Dennis, that in fact represents the immature unknown fungus from division Basidiomycota.

### Species List

Class **LEOTIOMYCETES** O.E. Erikss. & Winka 1997

Ordo: HELOTIALES Nannf. 1932

Fam.: **Arachnopezizaceae** Hosoya, J.G. Han & Baral 2015

1. *Arachnopeziza aurata* Fuckel

Fruška Gora: Iriški Venac, Karaman *et al.* 2012: 43; Andrevlje, 21.10.2013., on *Tilia tomentosa*, dead wood, F.G. 408, leg. & det. D. Savić.

2. *Arachnopeziza aurelia* (Pers.) Fuckel

Fruška Gora: Zmajevac, 30.03.2016., on *Quercus petraea*, cupula, F.G. 405, leg. & det. D. Savić.

Serbia: northeastern part, Karadžić & Milijašević 2005: 73, on *Quercus petraea*.

3.\**Arachnoscypha aranea* (De Not.) Boud.

Fruška Gora: Papratski Do, 27.10.2015., on *Quercus petraea*, cupula, F.G. 406, leg. & det. D. Savić.

4.\**Eriopezia caesia* (Pers.) Rehm

Fruška Gora: Iriški Venac, 28.02.2012., on *Tilia tomentosa*, dead wood, F.G. 407, leg. & det. D. Savić.

Fam.: **Ascodichaenaceae** D.Hawksw. & Sherwood 1982

5. *Ascodichaena rugosa* Butin

Fruška Gora: Schulzer *et al.* 1866: 40, sub *Radulum fagineum*.

Serbia: Mt Avala, Ranojević 1910: 376, sub *Radulum fagineum*, on *Carpinus betulus* and *Fagus sylvatica*; more locations, Karadžić 2003: 61, on *Fagus sylvatica*; Karadžić & Milijašević 2003: 27, on *F. sylvatica*; northeastern part, Karadžić & Milijašević 2005: 73, on *Quercus petraea*; Karadžić 2012: 3, on *F. sylvatica*.

Fam.: **Calloriaceae** Marchand 1894

6.\**Calloria neglecta* (Lib.) B.Hein

Fruška Gora: Paragovo, 03.04.2013., on *Urtica dioica*, dead stem, F.G. 466, leg. & det. D. Savić.

7.\**Duebenia compta* (Sacc.) Nannf. ex B. Hein

Fruška Gora: Glavica, 25.03.2014., on *Lathyrus latifolius*, dead stem, F.G. 334, leg. & det. D. Savić.

Fam.: **Cenangiaceae** Rehm 1888

*Cenangium acuum* Cooke & Peck

Serbia: Milijašević & Karadžić 2004: 122, on *Pinus nigra* and *Pinus sylvestris*; Karadžić & Stanivuković 2010: 3, on *P. nigra* and *P. sylvestris*; more locations, Karadžić & Milijašević 2008: 150, on *P. nigra* and *P. sylvestris*.

8.\**Cenangium alnicola* Hazsl.

Fruška Gora: Ledinci, 01.11.2016., on *Fagus sylvatica*, branch, F.G. 839, leg. & det. D. Savić.

*Cenangium ferruginosum* Fr.

Serbia: Karadžić & Stanivuković 2010: 3, on *Pinus nigra* and *Pinus sylvestris*; Mt Golija (Popaljenik), Gajić 1989: 61, on *P. nigra*; more locations, Karadžić & Milijašević 2008: 150, on *P. nigra* and *P. sylvestris*.

9.\**Encoelia furfuracea* (Roth) P.Karst.

Fruška Gora: Paragovo, 07.02.2014., on *Carpinus betulus*, branch, F.G. 571, leg. & det. D. Savić; Andrevlje, 26.02.2014., on *Alnus glutinosa*, branch, F.G. 409, leg. & det. D. Savić.

10. *Encoelia glaberrima* (Rehm) Kirschst.

Fruška Gora: Karadžić 2011: 3, on *Carpinus betulus*; Andrevlje, 20.11.2012., on *C. betulus*, branch, F.G. 572, leg. & det. D. Savić; Novo Hopovo, 10.09.2013., on *C. betulus*, branch, F.G. 467, leg. & det. D. Savić.

Serbia: NP Đerdap and Karakuša, Karadžić 2011: 3, on *C. betulus*.

11. *Sclerencoelia fascicularis* (Alb. & Schwein.) Pärtel & Baral

Fruška Gora: Beočin, 29.01.2013., on *Populus alba* and *Fraxinus sp.*, branch, F.G. 263, leg. & det. D. Savić.

Serbia: Sokobanja, Marković 2012: 44, on *Prunus avium*.

12.\**Trochila craterium* (DC.) Fr.

Fruška Gora: Brankovac, 22.03.2015., on *Hedera helix*, leaf, F.G. 573, leg. & det. D. Savić.

13.\**Trochila laurocerasi* (Desm.) Fr.

Fruška Gora: Iriški Venac, 10.03.2015., on *Prunus laurocerasus*, leaf, F.G. 264, leg. & det. D. Savić.

14.\**Velutarina rufo-olivacea* (Alb. & Schwein.) Korf

Fruška Gora: Andrevlje, 28.02.2013., on *Acer pseudoplatanus*, branch, F.G. 193, leg. & det. D. Savić.

Fam.: **Chaetomellaceae** Baral, P.R. Johnst. & Rossman 2015

*Chaetomella atra* Fuckel (Anamorphic Zoellneria)

Serbia: Beograd (Topčider), Ranojević 1910: 386, on *Melilotus albus*.

Fam.: **Chlorociboriaceae** Baral & P.R. Johnst. 2015

15. *Chlorociboria aeruginascens* (Nyl.) Kan. Ex Ram., Korf & L.R. Batra

Fruška Gora: Andrevlje, Karaman *et al.* 2012: 44; Dumbovo, 09.10.2012., on *Quercus sp.*, branch, F.G. 468, leg. & det. D. Savić; Papratski Do, 27.10.2015., on *Tilia tomentosa*, branch, F.G. 335, leg. & det. D. Savić.

Serbia: Mt Stara Planina, Ivančević 2007: 159.

16. *Chlorociboria aeruginosa* (Oeder) Seaver ex C.S. Ramamurthi, Korf & L.R. Batra

Fruška Gora: Testera, 16.04.2015., on *Quercus petraea*, dead wood, F.G. 119, leg. & det. D. Savić.

Serbia: Mt Tara (Crveni Potok), Čolić 1967: 411, sub *Chlorosplenium aeruginosum*.

Fam.: **Cordieritidaceae** Sacc. 1889

17.\**Ionomidotis fulvotingens* (Berk. & M.A. Curtis) E.K. Cash

Fruška Gora: Erdelj, 31.03.2015., on *Fraxinus ornus*, dead wood, FG99, leg. & det. D. Savić.

Fam.: **Dermateaceae** Fr. 1849

18.\**Dermea cerasi* (Pers.) Fr.

Fruška Gora: Iriški Venac, 16.04.2014., on *Prunus avium*, dead wood, F.G. 469, leg. & det. D. Savić.

19.\**Dermea prunastri* (Pers.) Fr.

Fruška Gora: Erdelj, 31.03.2015., on *Prunus spinosa*, branch, F.G. 266, leg. & det. D. Savić.

20. *Pezicula carpinea* (Pers.) Tul. ex Fuckel

Fruška Gora: Karadžić 2011: 4, on *Carpinus betulus*.

21. *Pezicula cinnamomea* (DC.) Sacc.

Fruška Gora: Stražilovo, 15.10.2015., on *Corylus avellana*, branch, F.G. 411, leg. & det. D. Savić.

Serbia: Karadžić 2006: 51, on *Quercus petraea*; northeastern part, Karadžić & Milijašević 2005: 75, on *Q. petraea*.

22.\**Pezicula ocellata* (Pers.) Seaver

Fruška Gora: Sviloš, 14.03.2014., on *Salix alba*, branch, F.G. 194, leg. & det. D. Savić.

Fam.: **Drepanopezizaceae** Bat. & H. Maia 1960

*Blumeriella jaapii* (Rehm) Arx

Serbia: Mt Tara, Marković 2012: 23, on *Prunus avium*, leaf.

*Diplocarpon alpestri* (Ces.) Rossman

Serbia: Mt Kopaonik (Srebrnac), Ranojević 1914: 413, sub *Bostrichonema alpestre*, on *Polygonum bistorta*, anamorph.

*Diplocarpon rosae* F.A. Wolf

Serbia: Cannon 1996.

23. *Drepanopeziza punctiformis* Gremmen

Fruška Gora: Beočin, Karaman *et al.* 2012: 43, sub *Marssonina brunnea*, on *Populus nigra*, leaf, anamorph.

24. *Drepanopeziza sphaerioides* (Pers.) Nannf.

Fruška Gora: Beočin, Karaman *et al.* 2012: 43, sub *Marssonina salicina*, on *Salix alba*, leaf, anamorph.

Serbia: Marković & Karadžić 2006: 186, sub *Marssonina salicicola*, on *Salix sp.*, anamorph; Marković *et al.* 2007: 78, sub *M. salicicola*, on *Salix spp.*, anamorph; Central Danube Region, Marković 2006: 72, sub *M. salicicola*, on *Salix sp.*, anamorph.

*Leptotrichila campanulae* (DC.) Rossman

Serbia: Pirot (Sarlak), Ranojević 1910: 386, sub *Placosphaeria campanulae*, on *Campanula bononiensis*; Mt Avala, Ranojević 1914: 405, sub *P. campanulae*, on *C. trachelium*)

*Marssonina andurnensis* (Ces.) Magnus (Anamorphic *Diplocarpon*)  
Serbia: Beograd (Topčider), Ranojević 1910: 394, on *Thymelaea passerina*.

*Marssonina truncatula* (Sacc.) Magnus (Anamorphic *Diplocarpon*)

Serbia: Počuta, Ranojević 1910: 394, sub *Marssonina truncatula*, on *Acer campestre*, anamorph; Beograd (Topčider), Ranojević 1914: 412, sub *M. truncatula*, on *Acer negundo*, anamorph.

*Pseudopeziza medicaginis* (Lib.) Sacc.

Serbia: Vranjska Banja, Ranojević 1910: 353, sub *Pseudopeziza trifolii* f. *medicaginis*, on *Medicago carstiensis*; Avala, Ranojević 1914: 394, sub *P.t.* var. *medicaginis*, on *Medicago lupulina*.

*Pseudopeziza trifolii* (Biv.) Fuckel

Serbia: Ranojević 1914: 394, on *Medicago sativa*.

Fam.: **Gelatinodiscaceae** S.E. Carp. 1976

25. *Ascocoryne cylindrium* (Tul.) Korf

Fruška Gora: Dumbovo, Karaman et al. 2012: 43; Andrevlje, 15.10.2013., on *Fagus sylvatica*, dead wood, F.G. 120, leg. & det. D. Savić.

Serbia: more locations, Karadžić 2003: 61, on *Fagus sylvatica*.

26. *Ascocoryne sarcooides* (Jacq.) J.V. Groves

Fruška Gora: Iriški Venac, Karaman et al. 2012: 43; Paragovo, Karaman et al. 2012: 43; Stražilovo, 16.10.2015., F.G. 470, leg. & det. D. Savić.

Serbia: more locations, Karadžić 2003: 61, on *F. sylvatica*; Karadžić & Milijašević 2003: 27, on *F. sylvatica*.

27.\**Ascocoryne solitaria* (Rehm) Dennis

Fruška Gora: Stražilovo, 16.10.2015., anamorph, F.G. 336, leg. & det. D. Savić.

28.\**Ascocotremella faginea* (Peck) Seaver

Fruška Gora: Stražilovo, 06.11.2015., on *Fagus sylvatica*, dead wood, F.G. 412, leg. & det. D. Savić.

*Neobulgaria pura* (Pers.) Petr.

Serbia: Karadžić & Milijašević 2003: 28, on *Fagus sylvatica*; more locations, Karadžić 2003: 65, on *F. sylvatica*.

29.\**Ombrophila violacea* (Hedw.) Fr.

Fruška Gora: Popovica, 22.08.2013., on deciduous tree, dead wood, F.G. 471, leg. & det. D. Savić; Rakovac, 06.06.2012., on *Tilia tomentosa*, dead wood, F.G. 195, leg. & det. D. Savić; Stražilovo, 26.12.2016., on *Fagus sylvatica*, dead wood, F.G. 870, leg. & det. D. Savić.

Fam.: **Godroniaceae** Baral 2015

*Gremmeniella abietina* (Lagerb.) M. Morelet

Serbia: Karadžić & Stanivuković 2010: 4, on *Pinus nigra* and *Pinus sylvestris*; Kopaonik, Vlasina and Mt Goč, Karadžić & Milanović 2008: 108, on *P. nigra* and *P. sylvestris*; more locations, Karadžić & Milijašević 2008: 150, on *P. nigra* and *P. syl-*

*vestris*; NP Kopaonik, Karadžić *et al.* 2002: 112, on *P. nigra* and *P. sylvestris*.

Fam.: **Helotiaceae** Rehm 1892

30.\****Cudoniella clavus*** (Alb. & Schwein.) Dennis

Fruška Gora: Paragovo, 24.09.2013., on *Carex silvatica*, leaf, F.G. 337, leg. & det. D. Savić.

31.\****Cyathicula coronata*** (Bull.) Rehm

Fruška Gora: Paragovo, 29.10.2012., on herbaceous plant, dead stem, F.G. 267, leg. & det. D. Savić; Grgurevci, 16.10.2015., on *Clematis vitalba*, dead stem, F.G. 121, leg. & det. D. Savić.

32.\****Cyathicula culmicola*** (Desm.) De Not.

Fruška Gora: Erdelj, 16.05.2014., on *Dactylis glomerata*, dead stem, F.G. 472, leg. & det. D. Savić.

33.\****Cyathicula cyathoidea*** (Bull.) Thüm.

Fruška Gora: Stražilovo, 15.10.2012., on herbaceous stem, F.G. 413, leg. & det. D. Savić; Rajkovač, 20.02.2013., on *Anthriscus sylvestris*, dead stem, F.G. 548, leg. & det. D. Savić; Rakovac, 07.05.2015., on *Sambucus ebulus*, dead stem, F.G. 547, leg. & det. D. Savić.

34.\****Hymenoscyphus aesculi*** (Velen.) Baral & E. Rubio

Fruška Gora: Andrevlje, 09.09.2016., on *Aesculus hippocastanum*, petiole, F.G. 847, leg. & det. D. Savić.

35.\****Hymenoscyphus albidus*** (Gillet) W. Phillips

Fruška Gora: Banoštov, 11.10.2012., on *Fraxinus excelsior*, branch, F.G. 196, leg. & det. D. Savić.

36. ***Hymenoscyphus calyculus*** (Sowerby) W. Phillips

Fruška Gora: Iriški Venac, Karaman *et al.* 2012: 43; Brankovac, 26.06.2013., on *Fraxinus ornus*, branch, leg. & det. D. Savić.

37.\****Hymenoscyphus caudatus*** (P.Karst.) Dennis

Fruška Gora: Susek, 18.09.2013., on *Fraxinus excelsior*, leaf, F.G. 474, leg. & det. D. Savić.

38. ***Hymenoscyphus fructigenus*** (Bull.) Fr.

Fruška Gora: Ledinci, Karaman *et al.* 2012: 43; Iriški Venac, 26.10.2012., on *Carpinus betulus*, fruit, F.G. 574, leg. & det. D. Savić; Bukovac, 12.08.2013., on *Quercus petraea*, cupula, F.G. 414, leg. & det. D. Savić; Rakovac, 17.09.2014., on *Fagus sylvatica*, cupula, F.G. 338, leg. & det. D. Savić.

39.\****Hymenoscyphus humuli*** (Lasch) Dennis

Fruška Gora: Popovica, 06.10.2015., on *Humulus lupulus*, dead branch, F.G. 122, leg. & det. D. Savić.

40.\* *Hymenoscyphus peruni* (Velen.) Svrček

Fruška Gora: Paragovo, 12.12.2016., on *Fagus sylvatica*, dead branch, F.G. 848, leg. & det. D. Savić.

41.\* *Hymenoscyphus scutula* (Pers.) W.Phillips

Fruška Gora: Sremska Kamenica, 08.10.2012., on herbaceous plant, dead stem, leg. & det. D. Savić; Paragovo, 19.09.2013., on herbaceous plant, dead stem, leg. & det. D. Savić; Grgurevci, 16.10.2015., on *Clematis vitalba*, dead wood, F.G. 576, leg. & det. D. Savić.

42.\* *Hymenoscyphus serotinus* (Pers.) W.Phillips

Fruška Gora: Papratski Do, 21.11.2012., on *Fagus sylvatica*, branch, F.G. 268, leg. & det. D. Savić; Vrdnik, 13.11.2014., on *F. sylvatica*, branch, F.G. 475, leg. & det. D. Savić.

43.\* *Hymenoscyphus syringicolor* Svrček

Fruška Gora: Iriški Venac, 13.12.2011., on *Fagus sylvatica*, leaf, F.G. 549, leg. & det. D. Savić.

44.\* *Malotium paludosum* Velen.

Fruška Gora: Iriški Venac, 28.04.2014., on *Aconitum lycoctonum*, leaf, F.G. 473, leg. & det. D. Savić.

45. *Phaeohelotium fagineum* (Pers.) Hengst.

Fruška Gora: Paragovo, 25.09.2013., on *Fagus sylvatica*, cupula, leg. & det. D. Savić; Iriški Venac, 03.10.2013., on *F. sylvatica*, cupula, F.G. 577, leg. & det. D. Savić.

Serbia: Karadžić & Milijašević 2003: 28, sub *Hymenoscyphus fagineus*, on *Fagus sylvatica*; more locations, Karadžić 2003: 62, sub *H. fagineus*, on *F. sylvatica* L.; Tara (Crveni Potok), Čolić 1967: 411, sub *Ombrophila faginea*, on *F. sylvatica*.

46.\* *Phaeohelotium geogenum* (Cooke) Svrček & Mattheis

Fruška Gora: Vrdnik, 25.10.2013., on *Quercus petraea*, cupula, F.G. 197, leg. & det. D. Savić.

47.\* *Phaeohelotium imberbe* (Bull.:Fr.) Svrček

Fruška Gora: Andrevlje, 20.08.2013., on deciduous tree, branch, F.G. 476, leg. & det. D. Savić.

48.\* *Phaeohelotium immutabile* (Fuckel) Declercq

Fruška Gora: Popovica, 30.10.2016., on *Quercus petraea*, leaf, F.G. 849, leg. & det. D. Savić.

49.\* *Phaeohelotium monticola* (Berk.) Dennis

Fruška Gora: Stražilovo, 18.08.2014., on *Quercus petraea*, cupula, seed, branch, *Carpinus betulus*, seed, F.G. 339, leg. & det. D. Savić.

*Phaeohelotium umbilicatum* (Le Gal) Dennis

Serbia: Bojčinska Šuma, Ivančević & Davidović 2011: 25.

50.\**Symphyosirinia clematidis* Baral

Fruška Gora: Čerević, 18.03.2014., on *Clematis vitalba*, seed, anamorph, F.G. 269, leg. & det. D. Savić.

Fam.: **Heterosphaeriaceae** Rehm 1888

*Heteropatella lacera* Fuckel (Anamorphic *Heterosphaeria*)

Serbia: Mt Stara Planina (Midžor), Ranojević 1910: 394, on *Verbascum sp.*, anamorph)

51.\**Heterosphaeria patella* (Tode) Grev.

Fruška Gora: Banstol, 09.09.2013., on *Apiaceae*, dead stem, F.G. 123, leg. & det. D. Savić.

Fam.: **Hyaloscypheaceae** Nannf. 1932

52.\**Cistella aconiti* (Rehm) Raity. & Järv

Fruška Gora: Iriški Venac, 28.04.2014., on *Aconitum lycocotonum*, dead stem, F.G. 198, leg. & det. D. Savić; Ledinci, 27.11.2015., on *Urtica dioica*, dead stem, leg. & det. D. Savić; Rakovac, 01.06.2016., on *Arctium lappa*, dead stem, leg. & det. D. Savić.

53. *Cistella acuum* (Alb. & Schwein.) Svrček

Fruška Gora: Iriški Venac, 03.06.2016., on *Picea abies*, leaves, F.G. 850, leg. & det. D. Savić.

Serbia: Karadžić & Stanivuković 2010: 4, sub *Dasyscyphus acuum*, on *Pinus sylvestris*; more locations, Karadžić & Milijašević 2008: 150, sub *D. acuum*, on *P. sylvestris*.

54.\**Cistella graminicola* (Raity.) Raity.

Fruška Gora: Stražilovo, 10.06.2016., on *Carex sylvatica*, leaves, F.G. 851, leg. & det. D. Savić.

55.\**Cistella grevillei* (Berk.) Raity.

Fruška Gora: Paragovo, 31.03.2014., on *Equisetum telmateia*, dead stem, F.G. 550, leg. & det. D. Savić; Erdelj 07.05.2014., on *Urtica dioica*, dead stem, F.G. 415, leg. & det. D. Savić.

56.\**Fuscolachnum misellum* (Roberge ex Desm.) J.H. Haines

Fruška Gora: Andrevlje, 27.10.2016., on *Rubus hirtus*, leaves, F.G. 852, leg. & det. D. Savić.

57.\**Hyaloscypha aureliella* (Nyl.) Huhtinen

Fruška Gora: Iriški Venac, 03.03.2014., on *Pinus nigra*, dead wood, F.G. 270, leg. & det. D. Savić.

58.\**Hyaloscypha britannica* Huhtinen

Fruška Gora: Paragovo, 04.11.2014., on *Picea abies*, dead wood, F.G. 551, leg. & det. D. Savić.

59.\**Hyaloscypha fuckelii* Nannf.

Fruška Gora: Testera, 05.09.2014., on *Alnus glutinosa*, dead wood, F.G. 552, leg. & det. D. Savić.

60.\**Hyaloscypha intacta* Svrček

Fruška Gora: Papratski Do, 27.10.2015., on *Fagus sylvatica*, dead wood, F.G. 340, leg. & det. D. Savić.

61.\**Hyaloscypha minuta* (Spooner & Dennis) Baral

Fruška Gora: Erdelj, 29.12.2016., deciduous tree, branch, F.G. 869, leg. & det. D. Savić.

62.\**Hyaloscypha quercicola* (Velen.) Huntinen

Fruška Gora: Stražilovo, 27.03.2016., on *Quercus petraea*, bark, F.G. 553, leg. & det. D. Savić.

63.\**Olla millepunctata* (Lib.) Svrček

Fruška Gora: Paragovo, 04.04.2013., on *Rubus silesiacus*, branch, F.G. 341, leg. & det. D. Savić.

64.\**Psilocistella conincola* (Velen.) Svrček

Fruška Gora: Paragovo, 25.12.2012., on *Pinus nigra*, cone, F.G. 416, leg. & det. D. Savić; Iriški Venac, 09.12.2016., on *Pinus nigra*, cone, F.G. 871, leg. & det. D. Savić.

Fam.: **Lachnaceae** Raity. 2004

65.\**Albotricha acutipila* (P.Karst.) Raity.

Fruška Gora: Paragovo, 28.03.2014., on *Dactylis glomerata*, dead stem, F.G. 124, leg. & det. D. Savić.

66.\**Brunnipila palearum* (Desm.) Baral

Fruška Gora: Susek, 21.03.2013., on *Alopecurus pratensis*, dead stem, F.G. 554, leg. & det. D. Savić; Ledinci, 04.05.2016., on *Poaceae*, dead stem, F.G. 199, leg. & det. D. Savić.

67.\**Capitotricha bicolor* (Bull.) Baral

Fruška Gora: Testera, 21.02.2014., on *Quercus sp.*, branch, F.G. 271, leg. & det. D. Savić.

68.\**Dasyscyphella clavicularia* (Velen.) Baral & Svrček

Fruška Gora: Iriški Venac, 07.10.2016., on *Quercus petraea*, leaf, F.G. 853, leg. & det. D. Savić, Zmajevac, 20.10.2016., on *Q. petraea*, leaf, F.G. 854, leg. & det. D. Savić.

69. *Dasyscyphella nivea* (R. Hedw.) Raityv.

Fruška Gora: Paragovo, 21.02.2007., F.G. 478, leg. & det. D. Savić; Andrevlje, 16.10.2013., F.G. 578, leg. & det. D. Savić; Crveni čot, 22.03.2013., F.G. 479, leg. & det. D. Savić.

Serbia: Karadžić 2006: 51, sub *Dasyscyphus niveus*, on *Quercus petraea*; northeastern part, Karadžić & Milijašević 2005: 74, sub *D. niveus*, on *Q. petraea*.

70.\**Incrucipulum ciliare* (Schrad.) Baral

Fruška Gora: Kraljeva Stolica, 17.10.2016., on *Quercus petraea*, leaf, F.G. 855, leg. & det. D. Savić.

*Lachnellula calyciformis* (Battarra) Dharne

Serbia: Mt Zlatar, Mt Kopaonik and NP Tara, Karadžić 2008: 85, on *Abies alba*.

71.\**Lachnellula resinaria* (Cooke & W. Phillips) Rehm

Fruška Gora: Stražilovo, 18.08.2016., on *Picea abies*, decorticated wood, F.G. 856, leg. & det. D. Savić.

*Lachnum capitatum* (Peck) Svrček

Serbia: northeastern part, Karadžić & Milijašević 2005: 74, sub *Dasyscyphus capitatus*, on *Quercus petraea*.

72.\**Lachnum caricis* (Desm.) Hohn.

Fruška Gora: Paragovo, 25.02.2013., on *Carex sylvatica*, leaf, F.G. 342, leg. & det. D. Savić.

73.\**Lachnum controversum* (Cooke.) Rehm

Fruška Gora: Beočin, 14.06.2013., on *Phragmites australis*, dead stem, F.G. 417, leg. & det. D. Savić.

74.\**Lachnum fasciculare* Velen.

Fruška Gora: Jabuka, 28.11.2012., on deciduous tree, dead wood, F.G. 481, leg. & det. D. Savić.

*Lachnum fuscescens* (Pers.) P. Karst.

Serbia: Karadžić & Milijašević 2003: 27, sub *Dasyscyphus fuscescens*, on *Fagus sylvatica*; more locations, Karadžić 2003: 62, sub *D. fuscescens*, on *F. sylvatica*.

75.\**Lachnum impudicum* Baral

Fruška Gora: Testera, 14.03.2014., on deciduous tree, dead wood, F.G. 555, leg. & det. D. Savić.

*Lachnum patulum* (Pers.) Rehm

Serbia: northeastern part, Karadžić & Milijašević 2005: 74, sub *Dasyscyphus patulus*, on *Quercus petraea*.

*Lachnum pudibundum* (Quél.) J. Schröt.

Serbia: Marković & Karadžić 2006: 184, sub *Dasyscyphus pudibundus*, on *Salix sp.*; Marković et al. 2007: 77, sub *D. pudibundus*, on *Salix spp.*; Central Danube Region, Marković 2006: 71, sub *D. pudibundus*, on *Salix sp.*

76.\**Lachnum pudicellum*. (Quél.) J. Schröt

Fruška Gora: Ledinci, 09.05.2016., on *Poaceae*, dead stem, F.G. 272, leg. & det. D. Savić.

*Lachnum pulverulentum* (Lib.) P. Karst.

Serbia: more locations, Karadžić & Milijašević 2008: 150, sub *Dasyscyphus pulverulentus*, on *Pinus nigra*.

77. *Lachnum virgineum* (Batsch) P.Karst.

Fruška Gora: Paragovo, Karaman et al. 2012: 43; Crveni čot, Karaman et al. 2012: 43; Iriški Venac, 21.02.2014., on *Pinus nigra*, cone, F.G. 579, leg. & det. D. Savić.

78.\**Lasiobelonium nidulum* (J.C. Schmidt. & Kunze) Spooner

Fruška Gora: Petrovaradin, 16.09.2013., on herbaceous plant, dead stems, leg. & det. D. Savić; Iriški Venac, 28.04.2015., on *Polygonatum odoratum*, dead stem, F.G. 125, leg. & det. D. Savić.

79.\**Lasiobelonium variegatum* (Fuckel) Raitv.

Fruška Gora: Andrevlje, 28.02.2013., on *Tilia tomentosa*, dead wood, leg. & det. D. Savić; Sremska Kamenica, 04.02.2014., on deciduous tree, branch, leg. & det. D. Savić; Papratski Do, 06.11.2015., on *T. tomentosa*, dead wood, F.G. 343, leg. & det. D. Savić; Testera, 10.03.2016., on *Pteridium aquilinum*, leaf, F.G. 872, leg. & det. D. Savić

80. *Neodasyscypha cerina* (Pers.) Spooner

Fruška Gora: Irig, 27.06.2014., on *Rosa canina*, branch, F.G. 580, leg. & det. D. Savić.

Serbia: Mt Avala, Ranojević 1910: 352, sub *Dasyscypha cerina*, on *Fagus sylvatica*.

81. *Proliferodiscus pulveraceus* (Alb. & Schwein.) Baral

Fruška Gora: Andrevlje, 23.01.2013., on *Fagus sylvatica*, wood, F.G. 581, leg. & det. D. Savić; Paragovo, 22.01.2013., on deciduous tree, branch, F.G. 482, leg. & det. D. Savić.

82. *Trichopeziza mollissima* Fuckel

Fruška Gora: Andrevlje, 27.03.2013., on *Apiaceae*, dead stem, F.G. 556, leg. & det. D. Savić; Iriški Venac, 29.04.2014., on *Aconitum lycoctonum*, dead stem, F.G. 418, leg. & det. D. Savić.

83. *Trichopeziza sulphurea* Fuckel

Fruška Gora: Banoštor, 10.10.2012., on *Urtica dioica*, dead stem, leg. & det. D. Savić., Paragovo, 24.09.2013., on herbaceous plant, dead stem, F.G. 273, leg. & det. D. Savić.

Fam.: **Mitrulaceae** Rchb. 1828

*Mitrula paludosa* Fr.

Serbia: Mt Tara (Crveni Potok), Čolić 1967: 411.

Fam.: **Mollisiaceae** Rehm 1891

84. *Mollisia cinerea* (Batsch.) P.Karst.

Fruška Gora: Paragovo, Karaman *et al.* 2012: 43, on deciduous tree, dead wood); Papratski Do, 16.06.2014.; on *Carpinus betulus*, dead wood, leg. & det. D. Savić.

Serbia: Kragujevac (Košutnjak) and Beograd (Topčider), Ranojević 1910: 353.

85. *Mollisia fusca* (Pers.) P. Karst

Fruška Gora: Stražilovo, 27.08.2013., on deciduous tree, dead wood, F.G. 484, leg. & det. D. Savić.

Serbia: Mt Avala, Ranojević 1910: 352, sub *Tapesia fusca*, on *Corylus avellana*.

86. *Mollisia ligni* (Desm.) P.Karst.

Fruška Gora: Iriški Venac, 06.05.2014., on *Carpinus betulus*, dead wood, F.G. 557, leg. & det. D. Savić.

Serbia: Beograd (Topčider), Ranojević 1910: 353, sub *Mollisia lignicola*, on *Quercus cerris*.

87. *Mollisia lividofusca* (Fr.) Gillet

Fruška Gora: Paragovo, 21.12.2016., on *Pinus nigra*, cone, F.G. 857, leg. & det. D. Savić.

Serbia: Beograd (Košutnjak), Ranojević 1910: 352, sub *Tapesia lividofusca*, on *Carpinus betulus*.

88.\**Mollisia luctuosa* Boud.

Fruška Gora: Glavica, 15.03.2016., on *Carex flacca*, leaf, base of stem, F.G. 483, leg. & det. D. Savić.

89.\**Mollisia melaleuca* (Fr.) Sacc.

Fruška Gora: Andrevlje, 28.02.2013., on deciduous tree, dead wood, F.G. 419, leg. & det. D. Savić.

90.\**Mollisia nervicola* (Desm.) Gillet

Fruška Gora: Sremska Kamenica, 14.05.2015., on *Quercus robur*, leaf, F.G. 345, leg. & det. D. Savić.

91.\**Mollisia olivaceocinerea* Svrček

Fruška Gora: Brankovac, 11.03.2016., on *Betula pendula*, branch, F.G. 126, leg. & det. D. Savić; Andrevlje, 13.09.2016., on deciduous tree, branch, leg. & det. D. Savić, Bukovac, 24.11. 2016., on *Pinus nigra*, dead wood, F.G. 873, leg. & det. D. Savić

92.\**Mollisia phalaridis* (Lib. ex P. Karst.) Rehm

Fruška Gora: Sremska Kamenica, 18.04.2016., on *Poaceae*, leaf, F.G. 200, leg. & det. D. Savić.

93.\**Mollisia retincola* (Rabenh.) P. Karst.

Fruška Gora: Rakovac, 30.04.2013., on *Phragmites australis*, dead stem, F.G. 485, leg. & det. D. Savić.

94.\**Mollisia revincta* (P. Karst.) Rehm

Fruška Gora: Paragovo, 19.05.2016., on *Rubus sp.*, branch, F.G. 274, leg. & det. D. Savić.

95.\**Mollisia rosae* (Pers.) P. Karst.

Fruška Gora: Brankovac, 28.05.2013., on *Rosa canina*, branch, F.G. 558, leg. & det. D. Savić.

Fam.: **Pezizellaceae** Velen. 1934

96.\**Allophylaria byssacea* P. Karst.

Fruška Gora: Brankovac, 04.11.2015., on *Arctium lappa*, leaf, F.G. 559, leg. & det. D. Savić.

97.\**Allophylaria filicum* (W. Phillips) Svrček

Fruška Gora: Vrdnik, 08.11.2016., on *Dryopteris filix-mas*, leaf, F.G. 840, leg. & det. D. Savić.

98.\**Antinoa pulchella* (Fuckel) Baral

Fruška Gora: Bešenovački prnjavor, 25.11.2016., on *Pinus nigra*, leaf, F.G. 845, leg. & det. D. Savić.

99. *Calycellina alniella* (Nyl.) Baral

Fruška Gora: Paragovo, Karaman *et al.* 2012: 43, sub *Pezizella alniella*; Testera, 20.02.2014., on *Alnus glutinosa*, catkin, leg. & det. D. Savić.

100.\**Calycellina chlorinella* (Ces.) Dennis

Fruška Gora: Andrevlje, 24.11.2015., on *Urtica dioica*, dead stem, F.G. 486, leg. & det. D. Savić.

*Calycellina fagina* (Ant. Schmidt & Arendh.) Baral

Serbia: more locations, Karadžić 2003: 62, sub *Scutoscypha fagi*, on *Fagus sylvatica*.

101.\**Calycellina populina* (Fuckel) Hohn.

Fruška Gora: Jabuka, 28.11.2012., on *Fagus sylvatica*, leaf, F.G. 560, leg. & det. D. Savić; Ledinci, 22.11.2013., on *F. sylvatica*, leaf, F.G. 420, leg. & det. D. Savić.

*Calycellina punctata* (Fr.) Lowen & Dumont

Serbia: northeastern part, Karadžić & Milijašević 2005: 73, sub *Calycellina punctiformis*, on *Quercus petraea*.

102.\**Calycellina rubescens* (Mouton) Van Vooren

Fruška Gora: Iriški Venac, 07.10.2016., on *Quercus petraea*, leaf, F.G. 858, leg. & det. D. Savić.

103. *Calycina citrina* (Hedw.) Gray

Fruška Gora: Bukovac, Dumbovo, Iriški Venac, Papratski Do and Stražilovo, Karaman et al. 2012: 44, sub *Bisporella citrina*.

Serbia: Beograd (Topčider) and Mt Stara Planina (Međa Planina), Ranojević 1910: 352, sub *Helotium citrinum*; Mt Stara Planina, Ivančević 2007: 159, sub *Bisporella citrina*.

104.\**Calycina claroflava* (Grev.) Kuntze

Fruška Gora: Stražilovo, 10.06.2016., on deciduous tree, dead wood, F.G. 859, leg. & det. D. Savić.

105. *Calycina conorum* (Rehm) Baral.

Fruška Gora: Iriški Venac, 21.02.2007., on *Pinus nigra*, cone, F.G. 275, leg. & det. D. Savić.

Serbia: Karadžić & Stanivuković 2010: 5, sub *Pezizella chionea*, on *Pinus nigra* and *Pinus sylvestris*; more locations, Karadžić & Milijašević 2008: 151, sub *P. chionea*, on *P. nigra* and *P. sylvestris*.

106.\**Calycina cruentata* (P. Karst.) Kuntze

Fruška Gora: Vrdnik, 10.11.2016., on *Carex sylvatica*, leaf, F.G. 842, leg. & det. D. Savić.

107.\**Calycina gemmarum* (Boud.) Baral

Fruška Gora: Stražilovo, 17.04.2013., on *Populus nigra* 'Italica', fallen buds, F.G. 346, leg. & det. D. Savić.

108.\**Calycina herbarum* (Pers.) Gray

Fruška Gora: Kraljeva stolica, 10.10.2013., on herbaceous plant, dead stem, F.G. 487, leg. & det. D. Savić; Jabuka, 11.10.2013., on herbaceous plant, dead stem, F.G. 488, leg. & det. D. Savić.

109.\**Calycina italica* (Sacc.) Baral

Fruška Gora: Ledinci, 01.11.2016., on *Quercus petraea*, branch, F.G. 860, leg. & det. D. Savić; Paragovo, 18.12.2015., on *Q. petraea*, branch, F.G. 861, leg. & det. D. Savić.

*Calycina phyllophila* (Desm.) Baral

Serbia: Karadžić & Milijašević 2003: 28, sub *Hymenoscyphus phyllophilus*, on *Fagus sylvatica*; more locations, Karadžić 2003: 62, on *F. sylvatica*.

110.\**Calycina scolochloae* (De Not.) Baral

Fruška Gora: Sremska Kamenica, 30.03.2015., on *Phragmites australis*, dead stem, F.G. 582, leg. & det. D. Savić.

111.\**Calycina subcitrina* (Velen.) Baral

Fruška Gora: Sremska Kamenica, 24.10.2016., on *Acer platanoides*, leaf, F.G. 862, leg. & det. D. Savić.

112.\**Calycina subtilis* (Fr.) Baral

Fruška Gora: Iriški Venac, 21.11.2016., on *Pinus nigra*, leaf, F.G. 843, leg. & det. D. Savić.

113.\**Calycina vulgaris* (Fr.) Baral

Fruška Gora: Beočin, 12.12.2013., on *Salix alba*, branch, F.G. 561, leg. & det. D. Savić.

114.\**Mollisina rubi* (Rehm) Höhn.

Fruška Gora: Andrevlje, 27.10.2016., on *Rubus sp.*, leaf, leg. & det. D. Savić.

*Pezizella fagi* (Jaap) Mattheis

Serbia: Karadžić & Milijašević 2003: 28, on *Fagus sylvatica*; more locations, Karadžić 2003: 62, on *F. sylvatica*.

115.\**Ciliolarina laetifica* Huhtinen

Fruška Gora: Iriški Venac, 03.03.2016., on *Pinus nigra*, dead wood, F.G. 421, leg. & det. D. Savić; Paragovo, 21.11.2016., on *Pinus nigra*, dead wood, leg. & det. D. Savić

116.\**Ciliolarina laricina* (Raitv.) Svrček

Fruška Gora: Stražilovo, 27.12.2016., on *Picea abies*, dead wood, F.G. 863, leg. & det. D. Savić

117.\**Psilachnum chrysostignum* (Fr.) Raitv.

Fruška Gora: Iriški Venac, 28.04.2014., on *Asplenium scolopendrium*, leaf, F.G. 276, leg. & det. D. Savić; 29.04.2014., on *Dryopteris filix-mas*, leaf, F.G. 489, leg. & det. D. Savić; Testera, 09.03.2016., on *Pteridium aquilinum*, leaf, F.G. 490, leg. & det. D. Savić.

118.\**Psilachnum eburneum* (Roberge) Baral

Fruška Gora: Glavica, 15.03.2016., on *Poa pratensis*, leaf, F.G. 562, leg. & det. D. Savić.

- 119.\**Psilachnum lanceolatoparaphysatum* (Rehm) Höhn.  
 Fruška Gora: Brankovac, 08.05.2015., on *Helleborus odorus*, leaf, F.G. 347, leg. & det. D. Savić.
- 120.\**Psilachnum rubicundum* (Sacc. & Speg.) Baral  
 Fruška Gora: Iriški Venac, 03.06.2016., on *Helleborus odorus*, leaf, F.G. 201, leg. & det. D. Savić.
- 121.\**Rodwayella citrinula* (P. Karst.) Spooner  
 Fruška Gora: Grgurevci, 08.02.2016., on *Poa pratensis*, dead stem, F.G. 422, leg. & det. D. Savić.
- Fam.: **Ploettnerulaceae** Kirschst. 1924
- Pirottaea gallica* Sacc.  
 Serbia: Beograd (Topčider), Ranojević 1914: 394, on *Helleborus odorus*.
- 122.\**Pirottaea imbricata* Nannf.  
 Fruška Gora: Andrevlje, 22.04.2016., on *Rubus sp.*, branch, F.G. 277, leg. & det. D. Savić.
- 123.\**Pirottaea lychnidis* (Desm.) Chlebická  
 Fruška Gora: Beočin, 11.03.2016., on *Silene alba*, dead stem, F.G. 563, leg. & det. D. Savić.
- 124.\**Pirottaea senecionis* (Cooke & W. Phillips) Nannf.  
 Fruška Gora: Andrevlje, 15.05.2015., on *Centaurea scabiosa*, dead stem, F.G. 491, leg. & det. D. Savić.
- 125.\**Pirottaea veneta* Sacc. & Speg.  
 Fruška Gora: Brankovac, 23.04.2015., on *Helleborus odorus*, leaf, F.G. 202, leg. & det. D. Savić.
- 126.\**Pyrenopeziza atrata* (Pers.) Fuckel  
 Fruška Gora: Andrevlje, 22.04.2016., on *Apiaceae*, dead stem, F.G. 278, leg. & det. D. Savić; Paragovo, 28.08.2015., on *Angelica sylvestris*, dead stem, F.G. 583, leg. & det. D. Savić.
- 127.\**Pyrenopeziza carduorum* Rehm  
 Fruška Gora: Brankovac, 01.04.2013., on *Centaurea scabiosa*, dead stem, F.G. 423, leg. & det. D. Savić.
- 128.\**Pyrenopeziza rubi* (Fr.) Rehm  
 Fruška Gora: Andrevlje, 22.04.2016., on *Rubus sp.*, branch, F.G. 493, leg. & det. D. Savić; Ledinci, 06.05.2016., on *Rubus sp.*, branch, F.G. 492, leg. & det. D. Savić.
- Pyrenopeziza homogynes* J. Schröt.  
 Serbia: Mt Kopaonik (Jelak), Ranojević 1914: 394, sub *Pseudopeziza homogynes*, on *Homogyne alpina*.

*Pyrenopeziza petiolaris* (Alb. & Schwein.) Nannf.  
Serbia: Beograd (Košutnjak), Ranojević 1910: 354, sub *Trochila petiolaris*, on *Aesculus hippocastanum*.

Fam.: **Rutstroemiaceae** Holst-Jensen, L.M. Kohn & T. Schumach. 1997

129. *Rutstroemia bolaris* (Batsch.) Rehm

Fruška Gora: Karadžić 2011: 4, on *Carpinus betulus*; Paragovo, Karaman et al. 2012: 44; Andrevlje, 05.09.2014., on *Quercus sp.*, branch, leg. & det. D. Savić.

Serbia: NP Đerdap and Karakuša, Karadžić 2011: 4, on *Carpinus betulus*.

*Rutstroemia bulgaroides* (P. Karst.) P. Karst.

Serbia: Mt Zlatar, Mt Kopaonik and NP Tara, Karadžić 2008: 85, on *Picea abies*; more locations, Keča 2006: 130.

130.\**Rutstroemia echinophila* (Bull.) Höhn.

Fruška Gora: Ledinci, 13.09.2005., on *Quercus sp.*, cupula, F.G. 274, leg. & det. D. Savić; Glavica, 30.08.2013., on *Quercus sp.*, cupula, leg. & det. D. Savić; Andrevlje, 05.09.2013., on *Quercus sp.*, cupula, F.G. 584, leg. & det. D. Savić; Papratski Do, 06.10.2015., on *Quercus sp.*, cupula, F.G. 585, leg. & det. D. Savić.

131. *Rutstroemia firma* Pers.

Fruška Gora: Ledinci, Karaman et al. 2012: 44; Papratski Do, 18.10.2012., on deciduous tree, branch, FG264, leg. & det. D. Savić; Papratski Do, 06.10.2015., on *Quercus petraea*, branch, leg. & det. D. Savić; Stražilovo, 13.10.2015., on *Q. petraea*, branch, F.G. 348, leg. & det. D. Savić.

Serbia: Bojčinska šuma, Ivančević & Davidović 2011: 26.

132.\**Rutstroemia fruticeti* Rehm

Fruška Gora: Brankovac, 08.11.2014., on *Rubus silesiacus*, branch, F.G. 864, leg. & det. D. Savić.

133.\**Rutstroemia luteovirescens* (Roberge ex Desm.) W.L. White

Fruška Gora: Iriški Venac, 29.10.2012., on *Acer platanoides*, branch, F.G. 279, leg. & det. D. Savić; Jabuka, 11.10.2013., on *A. platanoides*, branch, F.G. 494, leg. & det. D. Savić; Andrevlje, 15.10.2013., on *A. platanoides*, branch, F.G. 349, leg. & det. D. Savić.

134. *Rutstroemia petiolorum* (Roberge ex Desm.) W.L. White

Fruška Gora: Popovica, 06.10.2015., on *Fagus sylvatica*, leaf, petiole, F.G. 203, leg. & det. D. Savić.

Sebia: Karadžić & Milijašević 2003: 28, on *F. sylvatica*; Karadžić 2006: 49, on *Quercus petraea*; more locations, Karadžić 2003: 62, on *F. sylvatica*; northeastern part, Karadžić & Milijašević 2005: 75, on *Q. petraea*.

135.\**Rutstroemia sydowiana* (Rehm) W.L. White

Fruška Gora: Glavica, 30.08.2013., on *Quercus petraea*, leaf, petiole, F.G. 127, leg. & det. D. Savić.

136.\**Torrendiella ciliata* Boud.

Fruška Gora: Andevlje, 27.10.2016., on *Rubus hirtus*, leaf, F.G. 838, leg. & det. D. Savić.

Fam.: **Sclerotiniaceae** Whetzel 1945

137. *Botryotinia fuckeliana* (de Bary) Whetzel

Fruška Gora: Kraljeva stolica, 23.02.2007., anamorph, F.G. 495, leg. & det. D. Savić.

Serbia: Karadžić & Milijašević 2003: 27, sub *Botrytis cinerea*, on *Fagus sylvatica*; Karadžić & Milijašević 2008: 150, sub *B. cinerea*, on *Pinus nigra* and *Pinus sylvestris*; Karadžić 2006: 49, sub *B. cinerea* Pers., on *Quercus petraea*, *Q. frainetto* and *Q. cerris*; Keča 2006: 130, sub *B. cinerea*; Karadžić 2012: 3, sub *B. cinerea*, on *F. sylvatica*; Karadžić & Stanivuković 2010: 3, sub *B. cinerea*, on *P. nigra* and *P. sylvestris*; Beograd (Topčider), Ranojević 1910: 395, sub *B. cinerea*, on *Vitis vinifera* and *Ranunculus ficaria*; northeastern part, Karadžić & Milijašević 2005: 73, sub *B. cinerea*, on *Q. petraea*; more locations, Karadžić 2003: 61, sub *B. cinerea*, on *F. sylvatica*; Novi Sad, Marković 2012: 25, sub *B. cinerea*.

*Botrytis elliptica* (Berk.) Cooke (Anamorphic *Botryotinia*)

Serbia: Bulaić et al. 2006: 96, on *Lilium sp.* anamorph.

138.\**Botrytis galanthina* (Berk. & Broome) Sacc. (Anamorphic *Botryotinia*)

Fruška Gora: Brankovac, 18.02.2014., on *Galanthus nivalis*, anamorph, F.G. 280, leg. & det. D. Savić.

139.\**Ciboria amentacea* (Balb.) Fuckel

Fruška Gora: Testera, 05.03.2013., on *Alnus glutinosa*, rotting catkins, F.G. 567, leg. & det. D. Savić; Beočin, 06.02.2013., on *Corylus avellana*, rotting catkins, F.G. 566, leg. & det. D. Savić; Glavica, 08.02.2014., on *C. avellana*, rotting catkins, F.G. 565, leg. & det. D. Savić.

140. *Ciboria batschiana* (Zopf) N.F. Buchw.

Fruška Gora: Stražilovo, 13.10.2015., on *Quercus petraea*, acorn, F.G. 496, leg. & det. D. Savić.

Serbia: Karadžić & Milijašević 2005: 75, sub *Stromatinia pseudotuberosa*, on *Quercus petraea*; northeastern part, Karadžić & Milijašević 2005: 73, on *Q. petraea*; Stara Planina, Ivančević 2007: 160.

141.\**Ciboria conformata* (P.Karst.) Svrček

Fruška Gora: Testera, 20.08.2013., on *Alnus glutinosa*, leaf, F.G. 497, leg. & det. D. Savić.

142.\**Ciboria coryli* (Schellenb.) N.F. Buchw.

Fruška Gora: Grgurevci, 08.02.2015., on *Corylus avellana*, rotting catkins, F.G. 865, leg. & det. D. Savić.

143.\**Ciborinia bresadolae* (Rick) J.T. Palmer

Fruška Gora: Testera, 19.03.2014., on *Quercus sp.*, branch, F.G. 568, leg. & det. D. Savić; Papratski Do, 06.10.2015., on *Quercus petraea*, acorn, FG271, F.G. 569, leg. & det. D. Savić.

*Ciborinia candolleana* (Lev.) Whetzel

Serbia: Karadžić 2006: 49, on *Quercus petraea*, *Q. frainetto* and *Q. cerris* L.; northeastern part, Karadžić & Milijašević 2005: 73, on *Q. petraea*.

144. *Dumontinia tuberosa* (Bull.) L.M. Kohn

Fruška Gora: Iriški Venac, Karaman *et al.* 2012: 44; Rakovac, 26.02.2014., on *Anemone ranunculoides*, rhizome, F.G. 350, leg. & det. D. Savić.

*Monilinia fructicola* (G. Winter) Honey

Serbia: Hrustić *et al.* 2015

145. *Monilinia fructigena* Honey

Fruška Gora: Paragovo, 01.09.2015., on *Malus sylvestris*, fruit, anamorph, F.G. 128, leg. & det. D. Savić.

Serbia: Ranojević 1910: 395, sub *Monilia fructigena*, on *M. sylvestris*, *Pirus communis*, *Prunus domestica*, *P. avium* and *P. cerasus*, anamorph; Hrustić *et al.* 2015.

**CONCLUSIONS**

In the period from 2012 to 2016 we investigated diversity of fungi from the class Leotiomycetes (Ascomycota) on Fruška Gora Mountain. In total we recorded 164 species of which 131 represent the first records for Serbia. For all presented species data of localities, collection dates, host plants and collectors was given, as well as data from the literature concerning all species that have so far been reported from Serbia (excluding Erysiphales). The total number of fungi from the class Leotiomycetes so far recorded in Serbia currently amounts to 342 (including 104 species from the order Erysiphales).

### Acknowledgements

The authors thank to Hans-Otto Baral for helpful advice and assistance in the identification of certain species, as well as to Selena Jovanović for providing sample of *Geoglossum fallax* from Southern Serbia. This study was partially carried out within the project supported by the Ministry of Education, Science and Technological Development of the Republic of Serbia (III43002).

## ГЉИВЕ КЛАСЕ LEOTIOMYCETES НА ФРУШКОЈ ГОРИ СА ПРЕГЛЕДОМ НОВИХ ВРСТА ЗА СРБИЈУ

ДРАГИША САВИЋ, МАЈА КАРАМАН

### РЕЗИМЕ

У периоду од 2012. до 2016. године истраживан је диверзитет гљива класе Leotiomycetes (Ascomycota) на планини Фрушка гора. Укупно смо забележили 164 врста од којих 131 представља прве налазе за Србију. У раду је дата листа свих сакупљених врста припадника класе Leotiomycetes, осим реда Erysiphales, на Фрушкој гори, са подацима о локалитетима, датумима сакупљања и биљкама домаћинима, као и подаци из литературе о свим осталим врстама које су до сада нађене у Србији. Укупан број до сада евидентираних врста из класе Leotiomycetes у Србији износи 342, укључујући и врсте из реда Erysiphales (104).
