THE BUSINESS OF TOURISM

GUIDELINES FOR AUTHORS

The journal *The Business of Tourism* publishes original papers that have not been previously published in nor submitted to any other journal, conference proceedings, etc. Papers may be written in either Serbian or English. All papers are blind-reviewed by two independent reviewers and only papers receiving two approvals may be accepted for publishing. Papers that do not follow the guidelines below will be returned to the author without reviews. Papers are submitted to the board of editors to the email address: sanjal@visokaturisticka.edu.rs

The main parts of a paper are: title, abstract, key words, introduction, elaboration, conclusion and bibliography. Headings and subheadings do not have to be numbered. Papers should count up to 6000 words.

Font type: Times New Roman, font size 12, margins 2.5 (Normal).

Author’s details are written above the title, aligned left. The title and affiliation should be included.

The title of the paper is written in Serbian and English, justified.

Abstract in Serbian and English counts up to 200 words, style *italic*.

Key words: 5-7, divided by commas, style *italic*.

Pictures and tables should be numbered by order of appearance in the text. The title is written above each picture and table, source is written below.

Harvard citation style is used for quoting (Author Date Method). Quoting references in the text are written in brackets containing the surname of the author and year of publishing. If a text by another author is quoted as original with quotation marks, the brackets should contain the page number after the year of publishing. If there are two authors, both surnames are written. If there are three or more authors, the surname of the first author is followed by et al. Footnotes do not contain references, only additional explanations. If the paper was published within a national or international project, this information must be given in footnotes.

Bibliography: the list of authors’ surnames is written in alphabetical order. References are not translated into the language of the paper, but written in the original. The following is used for listing bibliographical references:
